

FARROWING CRATE P4

HIGHEST CARE FOR THE PIGLETS | COMFORT FOR THE SOW

new

Front as an open space without limitations.
Possible to assemble:
- feed dispenser
- feeders
- water pipe

Compact and solid structure of the crate

Covered trough with lateral sheets with mounting spots allowing to install different feeders and drinkers

Possibility to widen the crate at the front

Deep and broad trough strengthened with the rod

Possible to adjust length of the crate thanks to swapping the backside

Possible to widen the rear part of the crate - adjustable backside

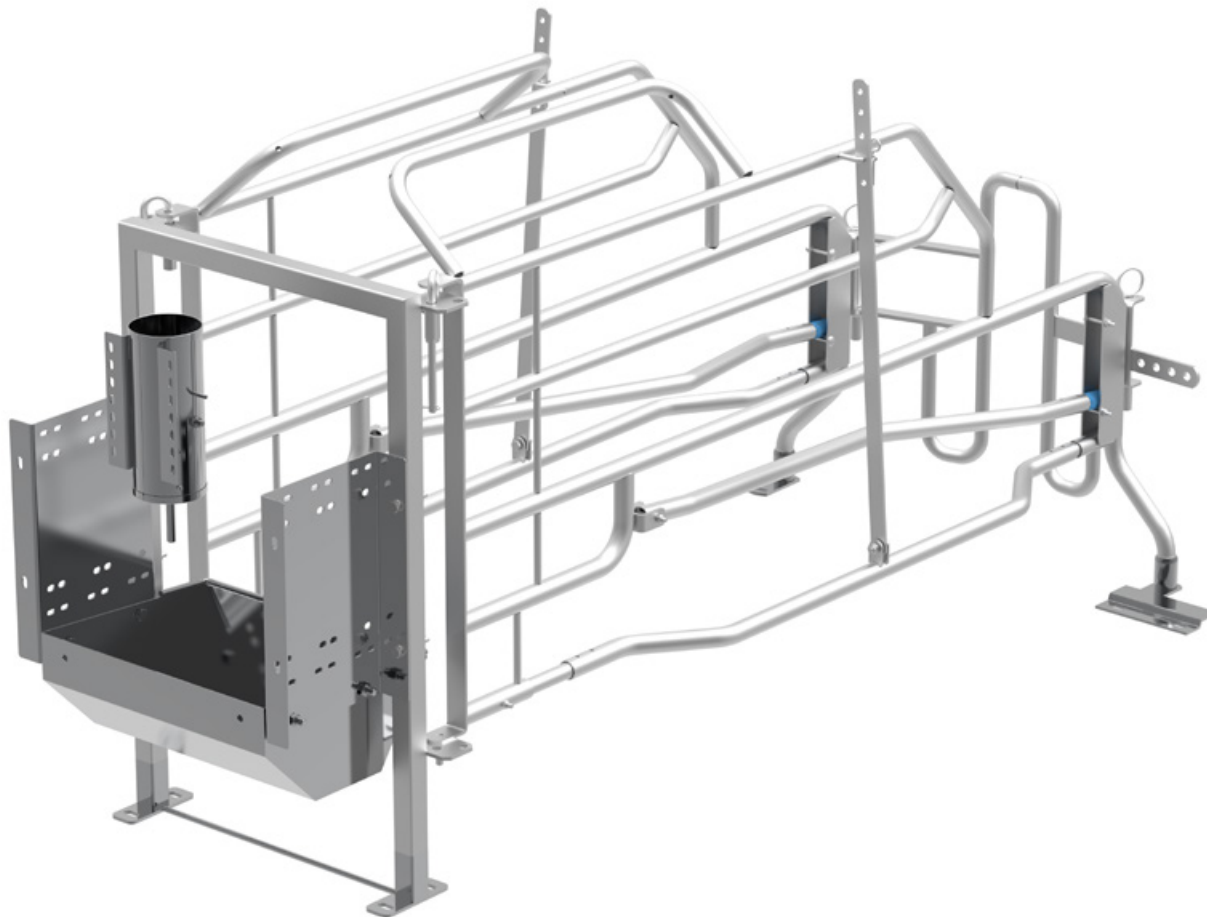

Anti-crush internal flipper bars reduces piglets losses

Optimal backside shape allows safe birth giving and ease sow treatment

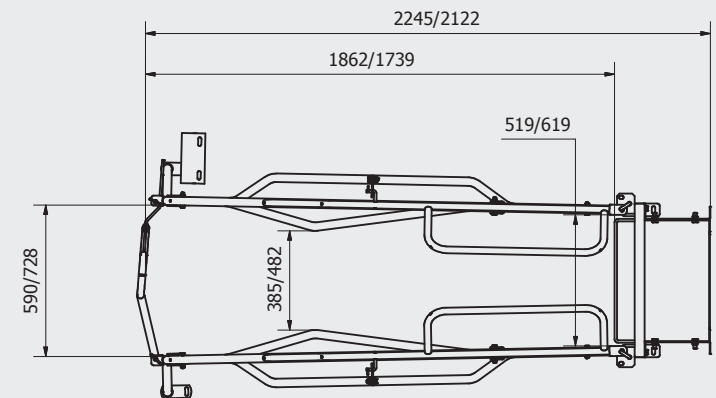

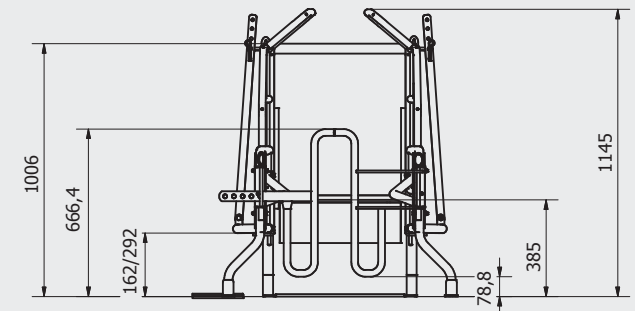

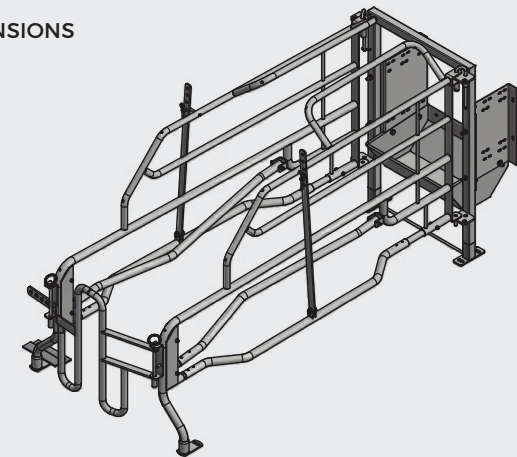

Adjustable external side bars enhance piglets access to the udder and allow modifications for different sized sow and gilts

Feet of the crate made of stainless steel 1.4301 - resistant to acids
